RDS shines through the gloom at Hillhead

Hillhead show proves a great success despite the rain

Despite the unseasonably wet and windy weather that lead to major flooding in many nearby areas and the closure of motorways, RDS still managed to make a splash at the Hillhead 2007 show in England.

With the complete on-board weighing range for wheeled loaders on show, the RDS tent proved a shelter from the rain for many people in the quarrying industry and confirmed RDS's position as the UK's market leader in on-board weighing.

RDS Technology Ltd - leading on-board machinery electronic technology into the 21st Century
